SUNTECK RECOGNIZED AS TOP 15 FREIGHT BROKERAGE FIRM

FOR IMMEDIATE RELEASE

November 18, 2009 – Boca Raton, Fla. – Sunteck Transport Group, a non-asset based provider of transportation services, has been named a Top 15 Freight Brokerage Firm by *Transport Topics*. Based on net revenues from the third quarter of 2008 through the second quarter of 2009, Sunteck was ranked #14 in an annual logistics industry report, compiled by *Transport Topics*. The report, which appears as part of the newspaper's November 9, 2009 edition, uses data provided by Armstrong & Associates and company financial reports.

"When we first started in the business in the '90s, I had no idea we would become so large and so successful," said Harry Wachtel, president and chief executive officer. "The first time we made the list, I was both thrilled and grateful for that accomplishment, which was no small feat. Then we rose up the list the next year, and again this year, now reaching number fourteen. This would not have been possible without the dedication and hard work that each of our agents and employees has put into building our business and brand. Without them, this simply would not have been possible."

About Sunteck Transport Group

Sunteck Transport Group, the operating subsidiary for AutoInfo, Inc., is a non-asset based transportation services company, providing transportation capacity and related transportation services through its agent network to shippers throughout the United States, and to a lesser extent, Canada. Sunteck's services include ground transportation coast-to-coast, local pick-up and delivery. Sunteck has strategic alliances with less-than-truckload, contract carriers, truckload common carriers and independent owner-operators to service its customers' needs quickly and effectively.
